

The diagram illustrates the division of 153 by 3. On the left, a long division is shown with 3 as the divisor and 153 as the dividend. The quotient 51 is written above the dividend. A horizontal line with three downward arrows, each labeled with a 3, spans the width of the division. This is followed by an equals sign and the expression $1 + 5 + 3$, where the 1, 5, and 3 are aligned under the hundreds, tens, and ones digits of 153 respectively. A large arrow points to the word *True* in orange, indicating the result of the calculation.

$$\overline{3 \over 153} = 51 = 1 + 5 + 3 \Rightarrow \text{True}$$
